

"Because of You Our Church Changes Lives"

When we think of stewardship most of us first think of money, and then we may let out a silent groan remembering that it is once again stewardship season. But stewardship is so much more, Stewardship is the act of taking care of something. In the church it is so broadened to mean taking care of all the God has entrusted us with. Stewardship is a lifestyle.

Our church changes lives when we deliver food to a foodbank, visit the sick or those in prison, or pray for all our neighbors, even those who look different than us. Our church changes lives when we fill disaster or personal care buckets for those hit by natural disasters. Our church changes lives when we make changes in our daily habits that help instead of damage our earth.

God call us all to be stewards of this earth and all the gifts we have been given. Help us to be mindful to live our lives so that together we can help our church change lives.

Donna Dorsch, NWOA Stewardship & Generosity Team
